

Crescendo Sub-processors

To support Crescendo in delivering its Services, Crescendo may engage third party service providers to assist with its data processing activities. When we work with these service providers in our capacity as a data processor, the third-party service provider is a sub-processor of Crescendo.

This page identifies the sub-processor, describes where they are located, and what services they provide to us. Before engaging any sub-processor, we perform extensive due diligence, including detailed security and legal analysis. We do not engage a sub-processor unless our quality standards are met. Our sub-processors are all subject to contract terms that enforce compliance with applicable data protection laws and hold them to our standards. Contracts with sub-processors meet or exceed the security expectations outlined in our data processing commitments established with our customers.

Crescendo currently uses the following sub-processors:

SUB-PROCESSOR	SERVICE PROVIDED	LOCATION OF THE SUB-PROCESSOR
Amazon Web Services	Cloud service provider	Canada
Hubspot	Customer relationship management	United States
Google	Email, file storage	United States
Stripe	Invoicing, payment processing	United States

For more information on Crescendo’s privacy practices, please consult our [Privacy Policy](#).
